

Hey George!

Where are those Weapons of Mass Destruction?

TRY LOOKING HERE:

Israel has one of the largest stockpiles of Weapons of Mass Destruction in the world, including nuclear, biological, and chemical weapons.

Israel refuses to sign the Nuclear Non-Proliferation Treaty and also refuses any international inspection of their WMD stockpiles.

Israel has a longer history of espionage and attacks against the United States than Iraq ever did; such as the USS Liberty attack, the Pollard spy case, the Lavon Affair, etc. Israel has also violated three times as many U.N. Resolutions than Iraq did.

America invaded Iraq over their alleged Weapons of Mass Destruction, and has threatened Syria and Iran for the same thing, but refuses to even acknowledge Israel's violations of international law and UN resolutions.

CUT OFF U.S. AID TO ISRAEL NOW!
