

Why do Students Need to Learn Spanish?

That is a very good question, indeed! Why should anyone be required to learn a language that is not of their native tongue?

Around two hundred years ago a large group of migrants came to the United States of America. They sought the freedom and the opportunity that this country offered. They came from all over Europe to seek out the promise of the New World, a free nation.

When they came to the United States it was not their language that was forced upon the people of this country. Instead, those immigrants that desired to live and work here were required to become proficient at reading, writing, and speaking English. Because of their perseverance, the Industrial Revolution began.

Today we are being invaded by a foreign nation that is determined to force their language and culture upon us. Two hundred years ago our ancestors would have taken up arms to defend this nation from such an invasion. However, thanks to a lack of leadership in our nation, the invaders are not only permitted to live here in peace, but they have been given free medical care and welfare for them and all their relatives.

It's time to put a stop to this lunacy. We must secure this nation from all foreign threats. Despite the treason perpetuated upon this country by our own president, we are still able to overcome. But we must stand together.

Are you willing to speak up? Or will you give in and learn to speak Spanish?
