

NO MORE WAR FOR ISRAEL!

The 39th President of the United States and Nobel Peace Prize winner, Jimmy Carter, recently said the war in Iraq is going to prove to be "one of the greatest blunders that American presidents have ever made." He knows that the power Israel has over American policy is so pronounced, that no politician would dare to oppose its demands, because to do so would be "political suicide."

By now, most intelligent people agree that Iraq never posed a direct threat to the United States. Most people understand that the Bush Administration lied to try and justify the premise for the current debacle of a perpetual, un-winnable war in Iraq.

So why do American soldiers continue to die in Iraq? It is simple! So Israeli soldiers won't have to and so that Israel won't have to fight its enemies itself. Iraq did not pose a threat to America; it did, however, pose a threat to Israel.

How much money and blood are we willing to spend to advance the imperialistic, genocidal aims of the terrorist state of Israel?

Let Israel fight its own wars!
